The Herand, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-govern-ment and the largest liberty to indi-viduals consistent with public good; laboring for a pure, bonest and ecclaboring for a pure, houset and ecc-nomic administration of government; treating public matters dispassionately and employing language calcu-lated to enlighten the reason of men, rather than influence their passions. and working for peace and the de-velopment of the resources of the tervelopment of the resources of the territory, instead of trying to create strife
and retard progress. With our increased facilities for gathering news,
both by telegraph and mail, the employment of a larger number of correspondents in different sections of
the country, and the batter arrangement of all the many details of the ment of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY

HERALD a better paper than ever.

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It confains all the news, domestic and for-eign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commer-cial and home journsl, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly bigh favor at the hands of the people.

in the house of deputies and among the people.

#### China and Russia.

New York, 10.—Hero'd's St. Peters burg, 18: I am in a position to state that Russia will decline to hold communications with the Chinese unbassador until his government has ratified the Lavidia treaty, and I am also informed that the Chinese are aiready making inroads into Russian territory. The embragile grows daily more complicated. The st. Petersburg press stands aghast at the sudden energy of the nation whose territory had come to be considered as the natural prey of Russia. It is charined by the unusual divilities that are now being exchanged between the Hong Kong and Canton governments by the expected change of front on the part of the English settlers in China, with respect to Gov. Hennessy's pro-Chinese policy and by the friendly sectiments expressed by Li Hing Chang toward the administration of Lord Bencousfield. It finds significance in the attention which is now directed to the defences of Shangani, where Gailing gues are being introduced and volunteers dilled, and the scattered residences of Greigners collected into a well-armed contre. There is, indeed, no part of China from which grave news is not daily brought to trouble the ministry of the Czar and to induce the belief that the course of Russian encroachment in Contral Asia is at last to suffer a serious check.

Penn Yan, N. Y., 10.—Plaisted Block and several other buildings burned. Loss, \$40,000.
